EDUCATION

B.Tech (IT)

NSUT Delhi
2023–2027 | CGPA: 6.66

Class XII (CBSE)

Rao Man Singh SSS
2022 | 90%

Class X (CBSE)

Rao Man Singh SSS
2020 | 89%

TECHNICAL SKILLS

Languages

Python, C++

Web Dev

HTML5, CSS3, JavaScript, Flask

Databases

MySQL, SQLite

Networking

OMNeT++, INET, OLSR, IEEE 802.15.4

Core CS

OS, CN, DBMS, DSA

Tools

Git, GitHub

CERTIFICATIONS

- Ethical Hacking – Udemy
- Design Thinking – NPTEL
- Soft Skills – NPTEL
- CodeForge'25 – WebForge
- Road Safety Hackathon – NHAI & HOAI

Address

Najafgarh, New Delhi

ABOUT ME

B.Tech IT student at NSUT Delhi, passionate about IoT network simulation, cybersecurity, and full-stack development. Currently researching performance-aware smart home systems with OLSR routing and multi-layer security in OMNeT++. IEEE conference paper co-author. Hackathon finalist. Eager to contribute to impactful real-world engineering projects.

ACADEMIC PROJECTS

Performance-Aware & Secure IoT Smart Home Network

[OMNeT++ 6.0.2](#) | [INET 4.5](#) | [OLSR](#) | [IEEE 802.15.4 / Wi-Fi](#) | [IEEE Paper](#)

- Designed star-topology smart home IoT network simulation; connected sensors, actuators & centralized gateway.
- Implemented OLSR routing for multi-hop communication; evaluated throughput, latency, PDR & jitter.
- Integrated multi-layer security: authentication, AES encryption & IDS against cyber-attacks.
- Built failover mechanism using secondary router, eliminating single point of failure.
- Co-authored IEEE conference paper with Versha Nishad & Chahat Yadav, NSUT Delhi.

Smart Route – Intelligent Toll & Route Planner

[Full-Stack Web App](#) | [Flask](#) | [SQLite](#) | [Google Maps API](#) | [Python](#)

- Built route planner with 3 modes: shortest distance, minimum toll, and fastest time.
- Implemented Floyd-Warshall algorithm + caching system, reducing API calls by 60%.
- Integrated Google Maps API for real-time traffic; achieved 200ms response time.
- Designed responsive UI/UX with animations; supported 100+ concurrent users.

EXPERIENCE

Community Intern – FARMER, Ghaziabad

Jun 2024 – Jun 2024

[Foundation for Agricultural Resources Management and Environmental Remediation](#)

- Completed 128 hours internship (exceeding 80-hour requirement) at non-profit NGO.
- Contributed to soil testing, organic cultivation, and bio-agent multiplication.
- Rearing of Galleria mellonella & in vivo multiplication of Entomopathogenic Nematodes.
- Conducted training programmes for sustainable agricultural practices.

CORE SKILLS

Python

C++

Flask

HTML5/CSS3

JavaScript

OMNeT++

INET Framework

OLSR Routing

IoT Systems

MySQL

SQLite
